has successfully completed the online Specialization

Microsoft Azure AI Fundamentals AI-900 Exam Prep

In this Specialization, learners developed and honed the essential skills for creating software that imitates human behaviors and capabilities, including the types of solutions AI make possible, and the services on Microsoft Azure that they can use to create them. The Specialization focused on the core concepts and skills related to implementing common Machine Learning and Artificial Intelligence workloads on Microsoft Azure.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
